

# Sustainable Business Models for Robotaxi

For robotaxis to be successful and introduced to our streets an increased level of knowledge about what factors that drive this development and what legal och business related challenges hinder the development is needed.

A Strategic Project under Drive Sweden, one of Sweden´s 17 Strategic Innovation Programs (SIP). The SIPs are funded by Vinnova, FORMAS, och the Swedish Energy Agency.

Project partners:

With support from

Strategic  
innovation  
programmes

# Challenges

- Successful pilots that fail to scale
- Underestimating ecosystem dynamics & industry disruption
- Pigeonholing & silos

# RECAP – a strategic framework

- Regulation & standards
- Economic resilience
- Cyber risks
- Attitudes & behaviors
- Political risks
