

Horizon Europe

EU Framework programme for research and innovation 2021-2027

'Investments in research and innovation improve Europeans' quality of life. Research and innovation accelerate the green and digital transformations that our planet needs, but also increase the competitiveness of our economies. The EU and Member States need to allocate enough resources in science, research and innovation to shape the future we want.'

Mariya Gabriel EU Commissioner for Innovation, Research, Culture, Education and Youth

The Horizon framework
programme is a
POLITICAL INSTRUMENT
where research and
innovation are needed to
achieve political priorities

ONE OF MANY TOOLS!

Horizon Europe Structure ~ 95,5 billion €

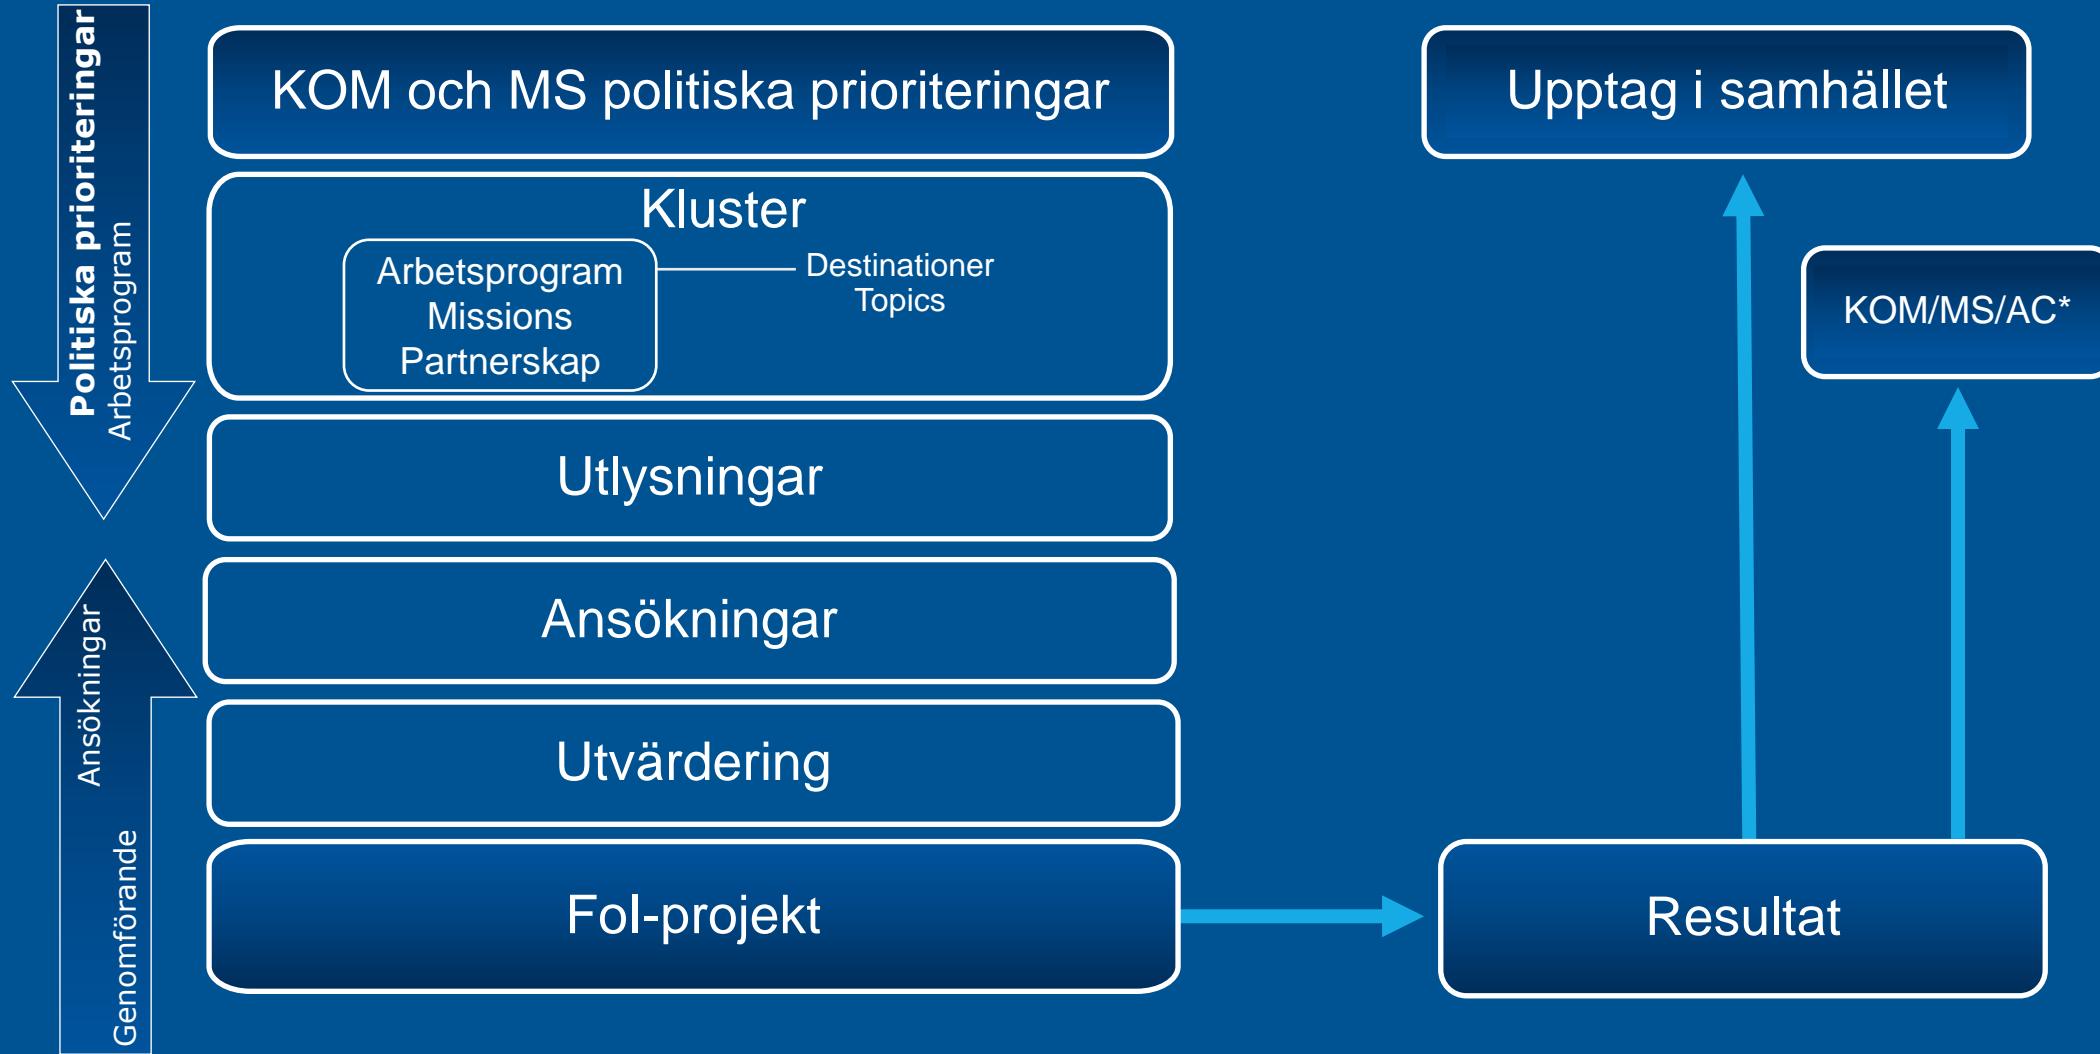

Widening Participation and Strengthening the European Research Area

Widening participation and spreading excellence

Reforming and Enhancing the European R&I system

Climate action target, i.e. 35% of the programme's budget, refers to Horizon Europe as a whole. This requires that ALL programme parts (also pillar 1 and 3) address climate-related priorities.
